

Spaghetti & Sauce

Each Volunteer needs to cook this amount given below. You will end up with 1/2 tray of spaghetti (large) & 1/2 container of sauce.

Ingredients:

Spaghetti- 3.5 lbs (SAMS brand *), Sauce - 2 Big cans (each 6 lb can Sams brand *)

Method:

Cook the Spaghetti as per the package directions. After cooking the Spaghetti, wash with cold water and drain properly, and add adequate olive oil. It is very important that you wash/rinse to prevent from clumping (Make sure it is loose and not stuck together). Do NOT add seasoning as it will be added later during serving.

Open the sauce can and heat the sauce well and add any suitable seasoning powder to taste **.

* If you buy Spaghetti or sauce at another store, please ensure the quantity is correct.

** Please do not add lot of red chili powder.

Make sure the consistency of the sauce is correct.

Note: Do not mix spaghetti & sauce. Keep them separately.
